PART I -- FINANCIAL INFORMATION

Item 1. Financial Statements.

STATEMENTS OF ASSETS, LIABILITIES AND TRUST CORPUS (NOTE 1)

JANUARY 31, 2017 AND OCTOBER 31, 2016

(Unaudited)

	2017	2016
ASSETS		
Current assets -- Cash and cash equivalents	$1,537,493	$1,165,347
Producing gas and oil royalty rights, net of amortization (Notes 1 and 2)	1	1
Total Assets	$1,537,494	$1,165,348
LIABILITIES AND TRUST CORPUS		
Current liabilities -- Distributions to be paid to unit owners, paid February 2017 and November 2016	$1,378,589	$1,102,871
Trust corpus (Notes 1 and 2)	1	1
Undistributed earnings	158,904	62,476
Total Liabilities and Trust Corpus	$1,537,494	$1,165,348

The accompanying notes are an integral part
of these financial statements.

STATEMENTS OF REVENUE COLLECTED AND EXPENSES PAID (NOTE 1)

FOR THE THREE MONTHS ENDED JANUARY 31, 2017 AND 2016

(Unaudited)

	2017	2016
Gas, sulfur and oil royalties received	$1,724,686	$1,832,471
Interest income	790	1,100
Trust Income	1,725,476	1,833,571
Non-related party expenses	(225,038)	(235,343)
Related party expenses (Note 3)	(25,421)	(24,541)
Trust Expenses	(250,459)	(259,884)
Net Income	$1,475,017	$1,573,687
Net income per unit	$ .16	$ .17
Distributions per unit paid or to be paid to unit owners	$ .15	$ .16

The accompanying notes are an integral part of these financial statements.

STATEMENTS OF UNDISTRIBUTED EARNINGS (NOTE 1)

FOR THE THREE MONTHS ENDED JANUARY 31, 2017 AND 2016

(Unaudited)

	2017	2016
Balance, beginning of period	$ 62,476	$ 79,030
Net income	1,475,017	1,573,687
	1,537,493	1,652,717
Less:		
Current year distributions paid or to be paid to unit owners	1,378,589	1,470,494
Balance, end of period	$ 158,904	$ 182,223

The accompanying notes are an integral part of these financial statements.

STATEMENTS OF CHANGES IN CASH AND CASH EQUIVALENTS (NOTE 1)

FOR THE THREE MONTHS ENDED JANUARY 31, 2017 AND 2016

(Unaudited)

	2017	2016
Sources of Cash and Cash Equivalents:		
Gas, sulfur and oil royalties received	$1,724,686	$1,832,471
Interest income	790	1,100
	1,725,476	1,833,571
Uses of Cash and Cash Equivalents:		
Payment of Trust expenses	250,459	259,884
Distributions paid	1,102,871	2,113,835
	1,353,330	2,373,719
Net increase (decrease) in cash and cash equivalents during the period	372,146	(540,148)
Cash and cash equivalents, beginning of period	1,165,347	2,192,865
Cash and cash equivalents, end of period	$1,537,493	$1,652,717

The accompanying notes are an integral part of these financial statements.

NORTH EUROPEAN OIL ROYALTY TRUST

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

(1) Summary of significant accounting policies:

Basis of accounting -

The accompanying financial statements of North European Oil Royalty Trust (the "Trust") are prepared in accordance with the rules and regulations of the SEC. Financial statement balances and financial results are presented on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States ("GAAP basis"). In the opinion of management, all adjustments that are considered necessary for a fair presentation of these financial statements, including adjustments of a normal, recurring nature, have been included.

On a modified cash basis, revenue is earned when cash is received and expenses are incurred when cash is paid. GAAP basis financial statements disclose revenue as earned and expenses as incurred, without regard to receipts or payments. The modified cash basis of accounting is utilized to permit the accrual for distributions to be paid to unit owners (those distributions approved by the Trustees for the Trust). The Trust's distributable income represents royalty income received by the Trust during the period plus interest income less any expenses incurred by the Trust, all on a cash basis. In the opinion of the Trustees, the use of the modified cash basis of accounting provides a more meaningful presentation to unit owners of the results of operations of the Trust.

The results of any interim period are not necessarily indicative of the results to be expected for the fiscal year. These financial statements should be read in conjunction with the financial statements that were included in the Trust's Annual Report on Form 10-K for the year ended October 31, 2016 (the "2016 Form 10-K"). The Statements of Assets, Liabilities and Trust Corpus included herein contain information from the Trust's 2016 Form 10-K.

Producing gas and oil royalty rights -

The rights to certain gas and oil royalties in Germany were transferred to the Trust at their net book value by North European Oil Company (the "Company") (see Note 2). The net book value of the royalty rights has been reduced to one dollar ($1) in view of the fact that the remaining net book value of royalty rights is *de minimis* relative to annual royalties received and distributed by the Trust and does not bear any meaningful relationship to the fair value of such rights or the actual amount of proved producing reserves.

Federal and state income taxes -

The Trust, as a grantor trust, is exempt from federal income taxes under a private letter ruling issued by the Internal Revenue Service. The Trust has no state income tax obligations.

Cash and cash equivalents -

Cash and cash equivalents are defined as amounts deposited in bank accounts and amounts invested in certificates of deposit and U. S. Treasury bills with original maturities generally of three months or less from the date of purchase. The investment options available to the Trust are limited in accordance with specific provisions of the Trust Agreement. As of January 31, 2017, the uninsured amount held in the Trust's U.S. bank accounts was $1,286,567. In addition, the Trust held € 9,451, the equivalent of $10,202, in its German bank account at January 31, 2017.

Net income per unit -

Net income per unit is based upon the number of units outstanding at the end of the period. As of both January 31, 2017 and 2016, there were 9,190,590 units of beneficial interest outstanding.

New accounting pronouncements -

The Trust is not aware of any recently issued, but not yet effective, accounting standards that would be expected to have a significant impact on the Trust's financial position or results of operations.

(2) Formation of the Trust:

The Trust was formed on September 10, 1975. As of September 30, 1975, the Company was liquidated and the remaining assets and liabilities of the Company, including its royalty rights, were transferred to the Trust. The Trust, on behalf of the owners of beneficial interest in the Trust, holds overriding royalty rights covering gas and oil production in certain concessions or leases in the Federal Republic of Germany.

These rights are held under contracts with local German exploration and development subsidiaries of ExxonMobil Corp. and the Royal Dutch/Shell Group of Companies. Under these contracts, the Trust receives various percentage royalties on the proceeds of the sales of certain products from the areas involved. At the present time, royalties are received for sales of gas well gas, oil well gas, crude oil, condensate and sulfur.

(3) Related party transactions:

John R. Van Kirk, the Managing Director of the Trust, provides office space and office services to the Trust at cost. For such office space and office services, the Trust reimbursed the Managing Director $6,404 and $5,273 in the first quarter of fiscal 2017 and 2016, respectively.

Lawrence A. Kobrin, a Trustee of the Trust, is a Senior Counsel at Cahill Gordon & Reindel LLP, which serves as counsel to the Trust. For the first quarter of fiscal 2017 and 2016, the Trust paid Cahill Gordon & Reindel LLP $19,017 and $19,268 for legal services, respectively.

(4) Employee benefit plan:

The Trust has established a savings incentive match plan for employees (SIMPLE IRA) that is available to both employees of the Trust, one of whom is the Managing Director. The Trustees have authorized the Trust to make contributions to the accounts of the employees, on a matching basis, of up to 3% of cash compensation paid to each employee effective for the 2017 and 2016 calendar years.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Executive Summary

The Trust is a passive fixed investment trust which holds overriding royalty rights, receives income under those rights from certain operating companies, pays its expenses and distributes the remaining net funds to its unit owners. As mandated by the Trust Agreement, distributions of income are made on a quarterly basis. These distributions, as determined by the Trustees, constitute substantially all of the funds on hand after provision is made for Trust expenses then anticipated.

The Trust does not engage in any business or extractive operations of any kind in the areas over which it holds royalty rights and is precluded from engaging in such activities by the Trust Agreement. There are no requirements, therefore, for capital resources with which to make capital expenditures or investments in order to continue the receipt of royalty revenues by the Trust.

The properties of the Trust, which the Trust and Trustees hold pursuant to the Trust Agreement on behalf of the unit owners, are overriding royalty rights on sales of gas, sulfur and oil under certain concessions or leases in the Federal Republic of Germany. The actual leases or concessions are held either by Mobil Erdgas-Erdol GmbH ("Mobil Erdgas"), a German operating subsidiary of the ExxonMobil Corp. ("ExxonMobil"), or by Oldenburgische Erdolgesellschaft ("OEG"). The Oldenburg concession is the primary area from which the natural gas, sulfur and oil are extracted and currently provides 100% of all the royalties received by the Trust. The Oldenburg concession approximately (1,386,000 acres) covers virtually the entire former Grand Duchy of Oldenburg and is located in the German federal state of Lower Saxony.

In 2002, Mobil Erdgas and BEB Erdgas und Erdol GmbH ("BEB"), a joint venture of ExxonMobil and the Royal Dutch/Shell Group of Companies, formed a company, ExxonMobil Production Deutschland GmbH ("EMPG"), to carry out all exploration, drilling and production activities. All sales activities are still handled by the operating companies, either Mobil Erdgas or BEB.

Vermilion Energy Inc. ("Vermilion"), a Canadian based international oil and gas producer, entered into a Farm-In Agreement (the "Farm-In Agreement") with Mobil Erdgas and BEB. The Trust has been advised by EMPG that the Farm-In Agreement specifies that Vermilion has acquired an interest in various portions of a concession or areas owned by Mobil Erdgas and BEB. Three of these licenses cover the three northernmost areas of the Oldenburg concession. The Farm-In Agreement commits

Vermilion to financial participation at a 50% level in 11 gross exploratory wells over the next five years. If Vermilion conducts any successful drilling within the confines of the Oldenburg concession, sales of that gas or oil would be subject to the relevant royalty contract. The Trust's German consultant has confirmed for the Trust that Vermilion will lead the development of its first well within the Oldenburg concession with a possible start time in 2019. The well is tentatively located in the western portion of the area designated Oldenburg-Land, the southernmost area of the three areas within the concession subject to Vermilion's Farm-In Agreement. Vermilion's well is intended to develop the Rotliegend (Red Sandstone) formation, a previously undeveloped productive zone within the concession.

The operating companies pay monthly royalties to the Trust based on their sales of natural gas, sulfur and oil. Of these three products, natural gas provided approximately 94% of the cumulative royalty income received in fiscal 2017. The amount of royalties paid to the Trust is primarily based on four factors: the amount of gas sold, the price of that gas, the area from which the gas is sold and the exchange rate.

On approximately the 25th of the months of January, April, July and October, the operating companies calculate the amount of gas sold during the previous calendar quarter and determine the amount of royalties that were payable to the Trust based on those sales. This amount is divided into thirds and forms the monthly royalty payments (payable on the 15th of each month) to the Trust for its upcoming fiscal quarter. At the same time that the operating companies determine the actual amount of royalties that were payable for the prior calendar quarter, they look at the actual amount of royalties that were paid to the Trust for that period and calculate the difference between what was paid and what was payable. Additional amounts payable by the operating companies would be paid immediately and any overpayment would be deducted from the payment for the first month of the following fiscal quarter. In September of each year, the operating companies make the final determination of any necessary royalty adjustments for the prior calendar year with a positive or negative adjustment made accordingly. The Trust's German accountants review the royalty calculations on a biennial basis.

There are two types of natural gas found within the Oldenburg concession, sweet gas and sour gas. Sweet gas has little or no contaminants and needs no treatment before it can be sold. Sour gas, in comparison, must be processed at the Grossenkneten desulfurization plant before it can be sold. The desulfurization process removes hydrogen sulfide and other contaminants. The hydrogen sulfide in gaseous form is converted to sulfur in a solid form and sold separately. As needed, EMPG conducts maintenance on the plant generally during the summer months when demand is lower. The operating companies have informed the Trust that, to promote greater efficiency and cost effectiveness, the production capacity of Grossenkneten will be reduced beginning in 2017.

Under one set of rights covering the western part of the Oldenburg concession (approximately 662,000 acres), the Trust receives a royalty payment of 4% on gross receipts from sales by Mobil Erdgas of gas well gas, oil well gas, crude oil and condensate (the “Mobil Agreement”). Under the Mobil Agreement, there is no deduction of costs prior to the calculation of royalties from gas well gas and oil well gas, which together accounted for approximately 98% of the cumulative royalty income received under this agreement in fiscal 2017. Historically, the Trust has received significantly greater royalty payments under the Mobil Agreement, as compared to the OEG Agreement described below, due to the higher royalty rate specified by that agreement.

The Trust is also entitled under the Mobil Sulfur Agreement to receive a 2% royalty on gross receipts of sales of sulfur obtained as a by-product of sour gas produced from the western part of Oldenburg. The payment of the sulfur royalty is conditioned upon sales of sulfur by Mobil Erdgas at a selling price above an agreed upon base price. This base price is adjusted annually by an inflation index. In the first quarter of fiscal 2017, the Trust received $41,421 in sulfur royalties under this agreement. In the first quarter of fiscal 2016, the Trust received no sulfur royalties under this agreement. The Trust was entitled to receive royalties attributable to sulfur sales during the third and fourth quarters of fiscal 2015. However, the operating companies made an accounting error by including eastern Oldenburg sulfur sales for the fourth quarter of 2011, all of 2012 and the first quarter of 2015 in the calculation of the western sulfur royalties under the Mobil Sulfur Agreement. This error resulted in an overpayment of sulfur royalties previously paid to the Trust, which more than offset the sulfur royalties payable.

Under another set of rights covering the entire Oldenburg concession and pursuant to the agreement with OEG, the Trust receives royalties at the rate of 0.6667% on gross receipts from sales by BEB of gas well gas, oil well gas, crude oil, condensate and sulfur (removed during the processing of sour gas) less a certain allowed deduction of costs (the “OEG Agreement”). Under the OEG Agreement, 50% of the field handling and treatment costs, as reported for state royalty purposes, are deducted from the gross sales receipts prior to the calculation of the royalty to be paid to the Trust.

In addition to the Oldenburg area, the Trust also holds overriding royalties at various rates on a number of currently non-producing leases of various sizes in other areas of Germany. One of these leases, Grosses Meer, was formerly active but provided no royalties during fiscal 2016, 2015 and 2014.

On August 26, 2016, the Trust executed amendments to its existing royalty agreements with OEG and Mobil establishing a new base for the determination of gas prices upon which the Trust's royalties are determined. This new base is set as the state assessment base for natural gas used by the operating companies in their calculation of royalties payable to the State of Lower Saxony. Currently, this change reflects a shift from the use of gas ex-field prices ("contractual prices") to the prices calculated for the German Border Import gas Price ("GBIP"). For simplification purposes, we will use "GBIP" when referring to the current state assessment base.

The change to the GBIP is intended to be revenue neutral for the Trust. Additionally, this change should reduce the scope and cost of the accounting examination, eliminate ongoing disputes with OEG and Mobil regarding sales to related parties, and reduce prior year adjustments to the normally scheduled year-end reconciliation. The new pricing basis will also eliminate certain costs (transportation and plant gas storage) that were previously deductible prior to the royalty calculation under the agreement with OEG.

Actual gas sales from the prior calendar quarter will be multiplied by the average GBIP for a period starting two months earlier and will provide the basis for royalty payments to the Trust during its fiscal quarter. The average GBIP for the corresponding period of actual sales is not available due to the delay in its calculation. For calendar 2016 and forward, the average GBIP under the Mobil and OEG Royalty Agreements will be increased by 1% and 3%, respectively. In March of the following calendar year, an average GBIP for the prior calendar year (weighted on a monthly basis by the respective volume of imported gas) is published. In September of the following calendar year, EMPG will make a final reconciliation based upon the published yearly average GBIP increased by the respective percentage factor and the total volume of gas sold under the royalty agreements during the prior calendar year. Required additions to royalty amounts already paid will be paid immediately. Required deductions from royalty amounts already paid will be deducted from the next royalty payment due.

The new basis for oil prices would be the published price from the State Authority for Mining, Energy and Geology. There are no percentage adjustments factored into the oil royalty calculation. There was no change in the previous methodology used with regard to the determination of royalties attributable to sales of sulfur.

The Trust itself does not have access to the specific sales contracts under which gas from the Oldenburg concession is sold. However, working under a confidentiality agreement with the operating companies, the Trust's German accountants review the spot market sales, the intra-company sales and the contractual sales periodically on behalf of the Trust to verify their correctness. The Trust's accountants in Germany will begin their next examination of the operating companies for the 2015 and 2016 period in November 2017.

For unit owners, changes in the dollar value of the Euro have an immediate impact. This impact occurs at the time the royalties, which are paid to the Trust in Euros, are converted into U.S. dollars at the applicable exchange rate and transferred from Germany to the United States. In relation to the dollar, a stronger Euro would yield more dollars and a weaker Euro would yield less dollars.

Seasonal demand factors affect the income from the Trust’s royalty rights insofar as they relate to energy demands and increases or decreases in prices, but on average they are generally not material to the annual income received under the Trust’s royalty rights.

The Trust has no means of ensuring continued income from overriding royalty rights at their present level or otherwise. The Trust’s consultant in Germany provides general information to the Trust on the German and European economies and energy markets. This information provides a context in which to evaluate the actions of the operating companies. The Trust's consultant receives reports from EMPG with respect to current and planned drilling and exploration efforts. However, EMPG and the operating companies continue to limit the information flow to that which is required by German law.

The low level of administrative expenses of the Trust limits the effect of inflation on costs. Sustained price inflation would be reflected in sales prices. Sales prices along with sales volumes form the basis on which the royalties paid to the Trust are computed.

Results: First Quarter of Fiscal 2017 Versus First Quarter of Fiscal 2016

Total royalty income received during the first quarter of fiscal 2017 was derived from sales of gas, sulfur and oil from the Trust’s overriding royalty areas in Germany during the fourth calendar quarter of 2016. The distribution of $0.15 per unit was paid on February 22, 2017 to owners of record as of February 17, 2017. Comparisons of total royalty income and net income for the first quarter of fiscal 2017 and 2016 are shown below.

	1st Fiscal Quarter Ended 1/31/2017	1st Fiscal Quarter Ended 1/31/2016	Percentage Change
Total Royalty Income	$1,724,686	$1,832,471	- 5.88%
Net Income	$1,475,017	$1,573,687	- 6.27%
Distribution per Unit	$0.15	$0.16	- 6.25%

The decline in net income between the first quarter of fiscal 2017 and the first quarter of fiscal 2016 resulted primarily from lower gas sales, lower gas prices and lower average exchange rates under both the Mobil and OEG Agreements as shown in the table below.

Total royalty income also reflects the inclusion of various positive and negative adjustments that the operators made during the quarter, including corrections from prior periods, as well as the inclusion of Mobil sulfur royalties. The total adjustments for the first quarter of fiscal 2017 increased total royalties received by $23,796. By comparison, in the first quarter of fiscal 2016 total royalties received were reduced by $560,902.

The table below is intended to illustrate trends based on actual gas sales in each quarter. Gas royalties shown in the table below are determined based on the actual physical gas sales that occurred during the fourth calendar quarter of 2016 and the average German Border Import gas Price for the period of August through October 2016. No adjustments for prior periods are reflected in the gas royalties.

	Quarterly Gas Data Providing Basis for Fiscal Quarter Royalties		
Mobil Agreement	4th Calendar Quarter Ended 12/31/2016	4th Calendar Quarter Ended 12/31/2015	Percentage Change
Gas Sales (Bcf [1])	6.489	6.604	- 1.74%
Gas Prices[2] (Ecents/kWh[3])	1.4789	1.8649	- 20.70%
Average Exchange Rate[4]	1.0582	1.0881	- 2.75%
Gas Royalties	$1,164,964	$1,538,701	- 24.29%
Gas Prices ($/Mcf [5])	$ 4.49	$ 5.82	- 22.85%
OEG Agreement			
Gas Sales (Bcf)	20.060	20.507	- 2.18%
Gas Prices (Ecents/kWh)	1.5081	1.9803	- 23.84%
Average Exchange Rates	1.0590	1.0874	- 2.61%
Gas Royalties	$466,168	$668,112	- 30.23%
Gas Prices ($/Mcf)	$ 4.48	$ 6.04	- 25.83%

[1]Billion cubic feet [2]Gas prices derived from August-October period
[3]Euro cents per kilowatt hour [4]Based on average exchange rates of cumulative royalty transfers [5]Dollars per thousand cubic feet

Excluding the effects of differences in prices and average exchange rates, the combination of royalty rates on gas sold from western Oldenburg results in an effective royalty rate approximately seven times higher than the royalty rate on gas sold from eastern Oldenburg. This is of particular significance to the Trust since gas sold from western Oldenburg provides the bulk of royalties paid to the Trust. For the first quarter of fiscal 2017, gas sales from western Oldenburg accounted for only 32.35% of all gas sales from the Oldenburg concession. However, royalties on these gas sales provided approximately 81.17% or $1,309,544 out of a total of $1,613,272 in Oldenburg royalties attributable to gas.

Trust expenses for the first quarter of fiscal 2017 decreased 3.63% or $9,425 to $250,459 in comparison to $259,884 in the first quarter of fiscal 2016. The reduction in expenses reflects the absence of current costs relating to the biennial examination of the royalty statements by the Trust's German accountants because 2017 is an alternate year. Additionally, the decrease in the amount of Trustee fees as specified in the Trust Agreement contributed to lower expenses. Trust interest income received in the first quarter of fiscal 2017 was $790, a decrease from interest income of $1,100 received in the first quarter of fiscal 2016 due to reduced funds available.

The current Statement of Assets, Liabilities and Trust Corpus of the Trust at January 31, 2017, compared to that at fiscal year-end (October 31, 2016), shows an increase in assets due to higher royalty receipts during the first quarter of fiscal 2017.

This report on Form 10-Q may contain forward-looking statements intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. Such statements address future expectations and events or conditions concerning the Trust. Many of these statements are based on information provided to the Trust by the operating companies or by consultants using public information sources. These statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated in any forward-looking statements. These include:

- risks and uncertainties concerning levels of gas production and gas sale prices, general economic conditions and currency exchange rates;
- the ability or willingness of the operating companies to perform under their contractual obligations with the Trust;
- potential disputes with the operating companies and the resolution thereof; and
- the risk factors set forth under Item 1A of the Trust's Annual Report on Form 10-K for the year ended October 31, 2016.

All such factors are difficult to predict, contain uncertainties that may materially affect actual results, and are generally beyond the control of the Trust. New factors emerge from time to time and it is not possible for the Trust to predict all such factors or to assess the impact of each such factor on the Trust. Any forward-looking statement speaks only as of the date on which such statement is made, and the Trust does not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Trust does not engage in any trading activities with respect to possible foreign exchange fluctuations. The Trust does not use any financial instruments to hedge against possible risks related to foreign exchange fluctuations. The market risk is negligible because standing instructions at the Trust's German bank require the bank to process conversions and transfers of royalty payments as soon as possible following their receipt. The Trust does not engage in any trading activities with respect to possible commodity price fluctuations.

Item 4. Controls and Procedures.

The Trust maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed by the Trust is recorded, processed, summarized, accumulated and communicated to its management, which consists of the Managing Director, to allow timely decisions regarding required disclosure, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

The Managing Director has performed an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of January 31, 2017 based on the criteria for effective internal control over financial reporting described in the standards promulgated by the Public Company Accounting Oversight Board and the Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, the Managing Director concluded that the Trust's disclosure controls and procedures were effective as of January 31, 2017.

There have been no changes in the Trust's internal control over financial reporting identified in connection with the evaluation described above that occurred during the first quarter of fiscal 2017 that have materially affected or are reasonably likely to materially affect the Trust's internal control over financial reporting.

PART II -- OTHER INFORMATION

Item 1. Legal Proceedings.

The Trust is not a party to any pending legal proceedings.

Item 4. Mine Safety Disclosure.

Not applicable.

Item 6. Exhibits.

Exhibit 31. Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

Exhibit 32. Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

I, John R. Van Kirk, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of North European Oil Royalty Trust;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;

   b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and to the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 32

Certification of Chief Executive Officer
and Chief Financial Officer
Pursuant to Section 906
of the Sarbanes-Oxley Act of 2002

Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (Chapter 63, Title 18 U.S.C. Section 1350(a) and (b)), the undersigned hereby certifies that the Quarterly Report on Form 10-Q for the period ended January 31, 2017 of North European Oil Royalty Trust ("Trust") fully complies with the requirements of Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 and that the information contained in such Report fairly presents, in all material respects, the financial condition and results of operations of the Trust.
