**NORTH EUROPEAN OIL ROYALTY TRUST ANNOUNCES
DISTRIBUTION FOR FIRST QUARTER OF FISCAL 2003**

RED BANK, N.J. January 29, 2003 -- The Trustees of North European Oil Royalty Trust (NYSE-NRT) announced today a quarterly distribution of 51 cents per unit for the first quarter of fiscal 2003, payable on February 26, 2003 to owners of record on February 14, 2003. The February distribution reflects royalties from sales of natural gas, sulfur and oil made during the last calendar quarter of 2002.

John R. Van Kirk, Managing Director, reported that this year's distribution was equal to the distribution for last year's corresponding quarter. The Trust has not yet received all of the information regarding gas sales and prices for the Oldenburg concession which is the Trust's primary royalty area. The information with respect to the higher royalty rate area of western Oldenburg has been received. Gas sales from western Oldenburg declined by 10.46% to 20.86 billion cubic feet ("Bcf") compared to 23.29 Bcf for the first quarter of fiscal 2002. Gas prices for gas sold from western Oldenburg declined by 9.89% to 1.3517 Euro cents per Kwh ("Ecents/Kwh") from 1.5001 Ecents/Kwh for the prior year's equivalent quarter. With both gas prices and sales for western Oldenburg lower, the amount of royalties in Euros prior to conversion declined by 18.7% in comparison to the prior year's period. With the significant increase in the average of the Euro experienced in recent months, the decline in royalties received after their conversion to dollars was reduced to just 4.1% in comparison to the amount of dollar royalties received in the prior year's equivalent period.

The Annual Meeting of Unit Owners will be held at 1:30 PM on February 12, 2003 at the University Club in New York City. All owners are invited to attend. Please note that the University Club has a dress code that requires business attire to be worn.
